# World of NEXT

The graphic for "World of NEXT" features the words "World of" in a light blue, cursive font, and "NEXT" in a large, white, bold, sans-serif font. A thick red arrow points from the "T" in "NEXT" towards the right. The background is a dark blue gradient with a subtle world map and a network of white lines connecting dots.

The World has undergone a shift in recent times. Most of the organisations have seen their plans dwindle. Out of the box thinking was something that helped businesses survive and thrive. This has forced organisations to think about a total new realm of possibilities. A World where digital is no longer a thing that is difficult to learn, A World where Digital is the new normal. A World which can work from Anywhere is looking forward to consistently Optimizing productivity and performance. Reskilling is the ever-important need to keep up the relevance of the workforce which has to instantly adopt newer technologies and business practices to keep in tandem with customer expectations and experiences.

Digital work has but the entire financial inclusion and payments space into a full throttle. The payment industry is also exploring newer capabilities with new payment umbrellas and newer regulations coming up to achieve the payment targets. Security is consistently the only factor which has maintained its highest relevance in the world Next.

Finnoviti for the BFSI sector and Technoviti for the Fintech and Big Tech Sector will explore what is going to be shaping the NEXT in Financial Services. We will put together all the possible triggers that have redefined the future of financial services business and the technologies that power it. The conference content would be carefully designed around the following areas to ensure a strategic input for leaders when they plan their NEXT.

## SESSION TOPICS

- Shaping the Financial services Next - Keynote

### Investment Protection:

Some of technology companies that have sent nominations in the past have expressed a concern that if they do not win an award, then their investment is wasted. To help overcome such concerns, Banking Frontiers has come up with a scheme to help such companies maximize the value of their investment for Technoviti nominations.

1. Send in **ONE** nomination for Technoviti 2021, and if your company does not win any Technoviti Award, then you can redeem 70% of your investment by taking **any one** of Advertisement / Advertorial / CEO interview / Newsletter in Banking Frontiers magazine. This must be consumed by March 2021 edition.
2. Send in **TWO** nomination for Technoviti 2021, and if your company does not win any Technoviti Award, then you can redeem 80% of your investment by taking **any two** of Advertisement / Advertorial / CEO interview / Newsletter in Banking Frontiers magazine. This must be consumed by May 2021 edition.
3. Send in **THREE OR MORE** nomination for Technoviti 2021, and if your company does not win any Technoviti Award, then you can redeem 90% of your investment by taking **any three** of Advertisement / Advertorial / CEO interview / Newsletter in Banking Frontiers magazine. This must be consumed by July 2021 edition.

**Bottomline: More your investment with Banking Frontiers, more is the protection of your investment.**
